SUBJECT: RELEASE PREMIUM OIL PAN GASKET

PURPOSE: For service only

APPLICATION: TD 25G Crawler Tractor Serial Number P072038 and UP
 WA500-1LE Wheel Loader Serial Number A61411 and UP
 WA500-3LE Wheel Loader Serial Number A70001 and UP

FAILURE CODE: A2H010

DESCRIPTION:

Introduction:

This PARTS AND SERVICE NEWS introduces a new premium oil pan gasket for the N14 engines in the above machines. The new oil pan gasket is available for service only and is being offered in addition to other oil pan gaskets.

Some N14 engines have experienced oil leaks at the rear of the oil pan. These leaks are due to low embossment heights. The new premium oil pan gasket is thicker, thereby stopping the leak.

If oil leaks have not been a problem, it is not necessary to use this new oil pan gasket.

PARTS LIST

Item	Part Number	Description	Qty	Remarks
1	1310 902 H1	Premium Oil Pan Gasket	1	Thickness: 1.19mm (0.047 in.)
