REF NO.	AA01201
DATE	October1, 2001

SUBJECT: TRANSMISSION TUBE CLAMP KIT (MK4245)

PURPOSE: To introduce a new transmission tube clamp kit (MK4245).

APPLICATION: Komatsu Mechanical Drive Dump Trucks:
530M: AFP49-A through AFP49-V, A30001 through A30038;
HD1500: AFP49-X & Up, A30039 through A30044;

FAILURE CODE: 1554MT

DESCRIPTION: Introduction of Transmission Tube Clamp Kit (MK4245)

It has been determined that there may be insufficient clamping on the tubes of the transmission. The transmission tube clamp kit (MK4245) has been designed in order to address the insufficient clamping. Refer to drawing (EJ6019) which contains all necessary information regarding kit installation.

Contents of Transmission Tube Clamp Kit (MK4245)
