REF NO.	AA02088
DATE	March 22, 2002

SUBJECT: INTRODUCTION OF IMPROVED INTERNAL GEAR BRAKE DISC

PURPOSE: To introduce rear brake discs with strengthened internal gear

APPLICATION: 330M DUMP TRUCKS, S/N 24120 THRU 24605
 330M DUMP TRUCKS S/N A10190 THRU A10223, A10225 THRU A10227
 HD785-3 DUMP TRUCKS, S/N 2001 THRU 2574
 HD785-5 DUMP TRUCKS, S/N 4001 THRU 4176
 HD785-5LC DUMP TRUCKS, S/N A10224, A10228 AND UP
 HD985-3 DUMP TRUCKS, S/N 1001 THRU 1020
 HD985-5 DUMP TRUCKS, S/N 1021 THRU 1051

FAILURE CODE: 2E47FF

DESCRIPTION:

We have employed improved rear brake discs with suppressed internal gear stress to prolong the break-age life of the gear tooth.

Since these rear brake discs are usable for already shipped vehicles, we recommend you to use them when replacing the rear brake discs at an opportunity of overhauling or when repairing these vehicles. With an improvement of the tooth contact of the inner gear of the disc, an inner gear to reduce the stress has been developed. It is therefore recommended to use the new inner gear when repairing damaged inner gears.

LIST OF PARTS:

PART NO.	PART NAME	QTY.	REMARKS
569-33-61241 (569-33-61240)	Disc (Disc)	30 (30)	
561-33-61314 (561-33-62515)	Gear (Gear)	2 (2)
