

PARTS & SERVICE NEWS

REF NO. AA04044

DATE April 27, 2004

(C)

Page 1 of 2

- SUBJECT:** ARMREST ASSEMBLIES
- PURPOSE:** To provide service parts information for obsolete parts and new replacement kits
- APPLICATION:** 708, 710, 712 and 714 Static Rollers, Serial Number 61880 and UP
784, D784 and PD784 Vibratory Rollers, Serial Number 452000 and UP
WA120-1LC Wheel Loaders, Serial Number A20001 and UP
WA180-1LC Wheel Loaders, Serial Number A75001 and UP
512 Front End Loaders, Serial Numbers 3001 and UP
518 Front End Loaders, Serial Numbers 5001 and UP
- FAILURE CODE:** 5712ZA
- DESCRIPTION:** The arm rest design for the machines listed above has been upgraded by the vendor. The new armrest has an improved surface texture and upper contour. Overall width increased by 8.5mm (0.33 in) and overall length increased by 12.5 mm (0.5 in).

MACHINE PREPARATION

1. Park the machine on a flat level surface; lower the work equipment to the ground. Shut off the engine and cycle the controls to remove any residual hydraulic pressure from the work equipment circuits. Turn the parking brake switch on and block the tires.
2. Remove the key from the ignition switch until the repairs are complete. Place a tag on the steering controls advising: "This machine is being repaired. It should not be started or moved for any reason until the tag is removed by the person doing the repairs."

WARNING! Observe all safety and precautionary standards as dictated by the environment and work conditions under which the equipment will be inspected, reworked and repaired. Consult the "Shop Manual" and "Operator's and Maintenance Manual" and your "Komatsu district service manager" with any/all questions regarding safety.

Remark

These instructions are intended to supplement the service data contained in the appropriate "Shop Manual". Always refer to that manual for Removal, Installation, Disassembly and Reassembly instructions when not contained in this document.

SERVICE PARTS

Individual components of the new design (armrest and cover plate) are not interchangeable with the old, and will not be serviced separately. Armrests will be available as kits, which include an armrest, a cover plate and associated hardware. If one armrest is replaced with the new design, it is suggested that the other also be replaced for uniformity.

PART REQUIREMENTS

ARM REST KITS

Item	Part Number	Description	Qty.	Ref.	Serial No.
ROLLERS					
1	1262 626 H92	KIT, ARMREST-RH	1		
2	NSS	.ARMREST	1		
3	NSS	.COVER PLATE	1		
4	1262 627 H92	KIT, ARMREST-LH	1		
5	NSS	.ARMREST	1		
6	NSS	.COVER PLATE	1		
WHEEL LOADERS					
7	423-57-A1201	KIT, ARMREST-LH AND RH	2		
8	NSS	.ARMREST	1		
9	NSS	.COVER PLATE	1		

The loader armrest kit 423-57-A1201 includes RH kit 1262 626 H92, LH kit 1262 627 H92 plus RH and LH mounting brackets not used in the rollers.
