DESCRIPTION:

Introduction:

The throttle cables have been upgraded with a bellows-type boot at the engine end. This protects the cable from fuel oil entering the end of the cable housing causing the seal to deteriorate.

For individual service part numbers, refer to the next page of this **PARTS & SERVICE NEWS**. Use this publication along with applicable parts book until such time as this information is incorporated into the parts book.

– NOTE –

The information in this **PARTS & SERVICE NEWS** does not authorize or imply any obligation on the part of Komatsu America International Company to provide reimbursement for any expenses. Machines requiring part repair or part replacement during the machine warranty are covered under normal warranty. Out-of-warranty machines are the responsibility of the distributor/customer.

The following Throttle Cables have bellows-type boots which are serviceable as noted:
