WA95-3	HA980051 up to HA980213

**Description:** In the further of technical development a new improved brake oil tank is mounted now on the above mentioned machines. At next visit of the machine the brake oil tank has to be exchanged. When changing the brake oil tank the current tank has to be removed including bracket. The new tank is supplied with a bracket.  
For the Wheel Loaders WA65-3 / WA65PT-3 / WA75-3 / WA85-3 an extension harness has to be fitted.  
Replace the label, if the new brake oil tank cover the current.
